

# Estillo 3

## Blue Grey

Estillo 3 Blue Grey slate is quarried from high in the mountains around La Bana, North West Spain, known for producing the best quality Spanish slates.

This slate is incredibly dense, making it extremely durable and long lasting. This is echoed by the 75 year guarantee offered on this slate. The thicker grades of Estillo 3 are well suited to weathering the often harsh climate of Northern England and Scotland. The more prominent texture on these heavier slates adds to the overall rugged appearance.

Due to the quality of the slate beds, the Estillo 3 can also be split to produce thinner prime grades, whilst not sacrificing on its structural integrity. Like all the thickness grades, the Prime 5mm option is very flat and it's smoother face requires minimal grading prior to laying.

Its deep blue grey colour and distinctive texture are recognisable of slates from the La Bana region, giving the finished roof a look reminiscent of domestically quarried slates, but at a more cost effective price.
