

Estillo 5

Light Grey

Estillo 5 is a distinctive Light Grey slate which may have varying degrees of shade variation giving a beautiful natural finish to the roof.

The excellent working characteristics of this slate mean that it splits well, giving a smooth close grained texture. This all gives the roof a neat and crisp finish.

The Estillo 5 may contain thin visible bands of pyrite which may discolour, but will not leach.

The Estillo 5 is fully certified and tested to BSEN 12326-1:2014 therefore attaining A1, T1, and S1 certification.
